

March 12, 2013

Dear Jason and the NCP staff,

We began using your services in 2010 when our first and only daughter was applying to colleges. We are Iranian and so your help in filling out FAFSA forms and meeting deadlines was extremely helpful as English is our second language. Before we met you we were overwhelmed with deadlines and questions and you clearly and carefully kept us on track and answered our questions.

In addition to providing us with help with our forms you aided our daughter in writing her personal statement and any other essays she needed to write for her applications. Your proofreading and notes allowed her to perfect and mold her essays for colleges making her a stronger candidate. Thanks to your help she was accepted to UCLA, NYU, UCSD, Chapman University, University of Indiana, and Boston University. She chose UCLA and has been very happy there.

The financial aid reward we received was amazing. **Kimia received \$27,706 in financial aid for UCLA. Of that, \$15,921 was in grant money that we never have to pay back. This totals to \$63,684 over four years of free money, which is simply amazing.**

Thank you so much for all your help. We could not have done anything in the process without you. Kimia has been very successful and so have we all thanks to you. You are the best help any college planning family could ask for!

Best,

Parvin and Jalal Behpoornia

Class of 2010
