

To Whom It May Concern:

Jason has helped my family in a tremendous way. Through his services my wife and I were able to send our daughter to college. We came to Jason after having dealt with the troubles of out-of-state tuition for our eldest son. Knowing that we couldn't go through the same process once more, and that we could not afford in-state tuition on our own, much less out-of-state, we found help. We were convinced that our daughter would have to attend community college for the first two years of school because the university price tag was just too much. Jason and his staff completely altered this idea. Through NCP our daughter was able to attend a great university and we were able to receive financial aid from her school. **She acquired \$43,106 in financial aid for UCSB, \$14,292 of that in grant money you never have to pay back. This totals to \$57,168 over four years of free money.**

Beyond that NCP also helped my daughter with the process of applying to schools. They showed her all of the opportunities she had for both public and private institutions. She now felt like she could take the time and decide where she wanted to be for the next four years.

Lastly, Jason's commitment to our family has proved longstanding as we have struggled with financial aid time and time again. Every year the school interprets our income differently from what it is in actuality therefore denying us a large sum of aid that we needed to send our daughter to school. Jason has been there for each of the 3 separate incidences and is able to get everything straightened out.

Thanks to NCP our daughter is able to enjoy all four years at college. We are really grateful to have found a service like this.
