Dear Jason,

Thank you for assisting Madeline in her college search. Everyone was so impressed to hear that she was accepted to all of the schools that she applied for admission!

We appreciate the guidance that you and your staff gave her as well as the reassurance she gained from all your encouragement. As parents, we were especially grateful for your support in helping us all to understand each other's viewpoints, as choosing a college can be stressful. Maddie always respected your counsel and your opinion.

With your knowledge and variety of experience regarding college admissions, we felt that you were able to guide Maddie to the best possible choice in order to meet her needs.

With many thanks,

Michelle & David Cieslak
