

March 19th, 2013

Dear Jason and Staff at NCP:

I would like to take this opportunity to thank you and your staff for the incredible help with the immense tasks of applying for college for my sons Jordan and James Le. I realized how wonderful you were three and a half years ago when I first enrolled Jordan in your program and three years later James. It would have been impossible to get through the world of higher education without your help and your wealth of knowledge with reference to financial issues were a great addition to the advice you gave to my boys and to fit my budget.

Before I came to you I knew for sure I was not capable of paying for college for one son, let alone two. However the amount of financial aid you were able to get me was outstanding and greatly appreciated. The amount of money you were able to get for my boys in grants and scholarships were amazing, where **Jordan received \$21,558 over four years, and James a \$10,000 scholarship for school for four years. This totaled up to a huge \$126,232 dollars and more for my kids to go to school.** I am so grateful that you helped me with this.

Another impact that you and your staff had on my children was when they came in to research and look up what schools they wanted to attend. With your vast knowledge in the higher education level, you were able to take certain qualities my kids were looking in for a school and find a college that fit their best personal needs. It was basically there "DREAM SCHOOL". The school that they were accepted into was perfect for my kids and they felt like they fit in perfectly with other students. They are part of the student body and are happy with the education they are receiving. This is all because of the help you and your staff gave them and they are happy to have you guys as someone they can turn to.

Now that Jordan is graduating this Spring, he will soon begin grad school, and once again I will need to call upon your help to get him and I through the trouble of going off to school again. Just like when I first brought him to you. Jason, you and your staff were such a great help to my family and I wish you guys all the best of luck and for you guys to prosper.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kathy Duong", with a long, sweeping flourish extending to the right.

Kathy Duong, Jordan Le and James Le
