To Whom It May Concern:

I cannot even begin to explain the joy and relief that being a part of National College Planners has given me! Going to college was a very scary prospect and I did not know what to expect. The entire process put a strain on my relationship with my parents and me as well, causing the process to become even more difficult. I had no idea where I wanted to go because of my wide variety of interest, but then when I met Jason Youngblood, I felt immediately at ease.

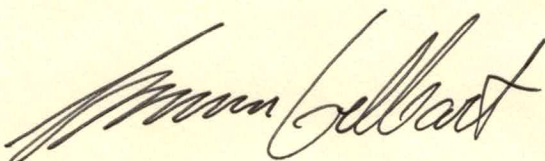

Working with NCP helped me big time. Jason helped me research twenty-nine schools to develop a final list of only fourteen schools. This helped narrow my search and allowed me to focus my attention on only those fourteen applications. The application process scared me a bit, but NCP assisted me with my applications, they edited my essays, and simplified the complicated admission process after being accepted into my top three schools. I am now attending Hofstra University happily. That was my first choice of school and I am so thankful that NCP helped guide me to that school and helped me get in there.

In addition to helping with the academic side of the process, they assisted my family greatly in the Financial Aid side as well. They helped complete the Financial Aid forms including the FAFSA, CSS Profile, Verification Forms, and numerous outside scholarship forms. Because of working with NCP, **my family received \$23,500 per year and \$18,000 of that in free grant money. That totals to \$72,000 of free money over four years, which never has to be paid back.**

NCP has really made this crazy and overwhelming process fun and enjoyable. It ended up being extremely rewarding with the guidance of these professionals. I got into my number one school with their help, and they helped make it affordable. I have told all of my friends and family about how professional NCP was, and how it remains so throughout my college years, whenever I have a question or need help.

Thank you again,

Anna Gelbart
