

Making College Affordable

Dear Jason and staff,

I was just accepted to Point Loma Nazarene University, one of my top choices. Without all your help and motivation I know I would not have even looked into such an amazing school. Before I went to one of your presentations I planned on going to a State school and now I have just been accepted to a Private University!

I had never considered a private school, not because I didn't have the grades to get in, but because I was sure that our family would not be able to pay for a private education. With the amount of aid I have been offered I was obviously wrong! You were completely right when you told us that we could consider private colleges and that you would help us get the financial aid I needed! I am shocked at the amount of aid I will have received by the time I have graduated Point Loma. With \$31,208 of financial aid per year, I will receive almost \$125,000 of financial aid! Thank you so much for making this possible!

I am really grateful for all the time you put into me and I look forward to thanking you in person the next time we have an appointment.

Sincerely,

Christian Holm
