

Dear Jason and National College Planners,

There are many different ways National College Planners has helped me and reasons why I would recommend them to anyone. Jason has all the knowledge relating to school's time lines and deadlines so that nothing will ever go missed. He was been there every step of the way to fill out the countless and confusing forms for financial aid. **My son Matthew received his award package with over 50% in grant money, which is equal to thousands of dollars in free money that never has to be paid back.** I know I never have to worry if we are getting the maximum amount since Jason works hard to do this.

The college process can be a difficult one but with Jason taking the lead and organizing everything, I found myself being at peace and not having to be the bad guy for once when work needed to get done and papers needed to be written. He was truly motivating for my son Matthew and a rational voice when an authority is needed and a mom is losing it. Jason regularly gave us both sound advice and I would not be shy to call him a good role model.

I would not hesitate to recommend him to any mother out there in need of guidance. The benefits we received from working with NCP are incalculable. All I can say is thank you.

Sincerely,

  
Suzanne Lipsett
