Subject: Re: Testimonial Letter

Dear Jason and Staff:

Just a short note to tell you how much I appreciate the help you and your staff have provided in helping us navigate the maze of college financing. I can honestly say that without your assistance we may never have had the success we enjoy today.

I am sure I would have thrown up my hands in frustration had I not attended your seminar on college financial planning and decided to use your services. The net result is my daughter, Kailey, is thriving in a college environment she never expected she would ever have the opportunity to experience. Her grades have soared and she is enjoying all of the unique experiences of college life at a major university. She received **\$25,860 in financial aid for ASU, \$8,550 of that in grant money we never have to pay back. This totals to \$34,200 over four years of free money.** As a working parent, I could not have asked for more.

Thanks again,

A handwritten signature in black ink, appearing to read "Joe McNeill". The signature is stylized with a large, sweeping initial "J" and "M".
