

February 5, 2013

Jason,

Do yourself, and more important your child, a favor and hire NCP during the freshmen or sophomore year of high school. When the majority of classmates and their parents are losing sleep at night during the junior and senior years, you will be relaxed and confident knowing which school they will be attending and that financially it will all work out.

Jason and his staff help with every single aspect of getting into college. When I say help, I mean hold your hand and guide you. My son was truly motivated by Jason to work hard. I was relieved of the duty of filling out applications. NCP asks questions and meticulously filled them out. I was very impressed with the effort NCP took in creating a good solid essay for the applications.

**Jason is absolutely amazing in getting every last drip of financial aid available. Over the four years my son will receive \$176,864 in free money.** Jason Youngblood and his staff at NCP have taken a very complicated, stressful process and given my son the tools to secure a successful career. Jason is providing much more than picking a school. Reese, my son, was pumped up when we left that interview. That fork in the road that led us to NCP was the best thing that has happened to our family. My younger son, only with the help of NCP is now doing extremely well in college. I guarantee you, go with NCP. Any nominal fees they charge are returned, in our case 40 fold.

Brian Moulton
