

Dear Jason,

3-12-13

Words like knowledgeable, efficient, professional, energetic and understanding describe you and NCP, but you are FAR MORE than these adjectives! Coming from a highly competitive High school and 50 miles away we felt somewhat apprehensive using your services. Those feelings were SMASHED once you made time for us on a Saturday and we met! Michael instantly connected with you. Richard and I saw that you were the important link to help Michael get through the mountain of paperwork needed to get accepted into his top choice schools. You had strategies we never would have thought of, ~~essay help just a computer click away,~~ and ALWAYS returned phone calls in a timely manner. Ultimately he was accepted to 12 of the 15 top colleges he applied to, with large financial aid packages! (Which we thought as a physician would be impossible).

Most helpful, to us was your ability to fill out and send: the FAFSA and CSS forms and give us step-by-step instructions (and some hand holding by phone) to get the additional paperwork needed by the 13 private colleges Michael applied to.

Now that we look back at the process a year later and continue to work with you, we can see what an amazing experience we had. NO nightmares, NO tears, NO anxiety, NO glitches. I can't believe how much stress you took off of us. Like a concrete brick lifted off our shoulders. The wonderful news came in March when Michael was, accepted to his first choice! The Wharton business school at the University of Pennsylvania, an Ivy! **With your help he received 22,500 in financial aid for his freshman year. That's \$90,000 for four years!** We are more than thrilled! Your fees are more than reasonable for the services you provide. (Many companies in the South Bay charge twice as much.) We would unconditionally, without reservation recommend you to any family wanting to send their child to any college!
