

May 8, 2013

Dear Jason,

It has been a year since we meet with you about assisting us with the whole college process. Having you and your staff work with our son made the whole experience so much easier. Not only did you help him narrow down his choices, your insistence that he be responsible for all aspects of the process helped him grow and be prepared for the responsibilities he will have in college.

Having already put two sons through college, unassisted, filling out the FAFSA/CSS paperwork & student loan documents each year; when you told us that you would do all the paperwork – that was music to our ears.

With your help our 3rd son will be attending Arizona State University. **He has received an \$11,500 annual scholarship, totaling \$46,000 for the four years.** Plus, the school has informed him that he can apply for additional scholarships each year.

Thank you for making the whole experience stress free.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Richard & Cathie Rutkin', with a long horizontal flourish extending to the right.
